Attention : Lawson Gay

Dear Lawson,

**New Waste Transfer and Scale House Buildings for Waste Management Inc.  
Clarington, Ontario**

**Project No. 03103**

This will confirm that, to date, we have been most impressed by your company's approach to, and performance on, the above noted 2.65 million dollar industrial project.

We particularly appreciate the excellent cooperation that we have enjoyed in all of our dealings with you and Tim Dailey on site. All of the issues which have arisen have been dealt with in an open and fair manner, thus assisting greatly in their mutually acceptable resolution.

As a result we have developed a confidence and trust in your abilities to successfully complete this work to the high quality standards which were demonstrated in the completed structural concrete work.

It has thus far been a pleasure working with you, and I look forward completing the project with the same excellent standards of cooperation and dedication which you and your staff have displayed to date.

Yours truly,

Ian Johnson, B. Arch., OAA., MRAIC.
